

# Cyber Resilience as a Service: Trusted Data Protection at Scale

SaaS Backup powered by Commvault Cloud – Scalable, Reliable, and Secure.

## Salesforce

23 Salesforce Org's  
16 Production  
7 Sandbox  
~1,000 users

## +1PB Private Cloud Storage

**Production** - Short Term  
Restores

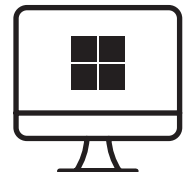

**Object Tier** - Long Term Archive for  
Restores

## Large File Servers

## Microsoft 365

Exchange  
Teams  
SharePoint  
OneDrive

## Virtual Machines

Microsoft Azure, Amazon Web  
Services (AWS), On Premises  
(core datacentres x2, large  
regional offices x15 and remote  
edge sites x98)

**+1,000 VM's being protected:**  
SQL Databases  
Oracle Databases  
Standard VM's

Department of Planning,  
Housing & Infrastructure

## Why Choose Our Service?

**Comprehensive Coverage:**  
Protects both cloud and on-  
premises data seamlessly.

**Scalable:**  
Grows with your needs,  
ensuring uninterrupted  
performance.

**Regulatory Compliance:**  
Meets State Records  
Act strict security and  
compliance requirements.

**Fast Recovery:**  
Minimise downtime with  
quick, reliable restores.

## How We Deliver Value

**Effortless Backup  
Management:**  
Hands-free operations  
backed by expert support.

**Cross-Platform Flexibility:**  
Seamlessly safeguard  
on-premises and cloud  
workloads.

**Disaster Recovery You Can  
Count On:**  
Be ready to recover at a  
moment's notice.

**Cost-Efficient:**  
Simplify your budget with  
predictable, scalable pricing.

## Ease of Procurement

– leverage our existing NSW  
Gov ICTA to avoid going to  
market – procure on same  
ICTA terms

## Protect Broadest Workloads

### On-Premise Workloads

- Virtual Machines
- Physical Servers
- Databases
- Applications
- File Servers

### Cloud Workloads

- IaaS
- PaaS
- SaaS
- Containerised Apps

### Hybrid & Edge Workloads

- Edge Data Protection
- Endpoints
- Hybrid Cloud

### Specialised Workloads

- Big Data
- Object Storage
- Dev/Test Environments
- Immutable Storage for Compliance

**Don't leave your data to chance.  
Start protecting it today with our  
Cyber Resilience as a Service!**
